

Mitex Triflex

APPLICATIONS

- 🌐 TRIFLEX is an excellent cover for squeezing rolls in the steel and aluminium industry
- 🌐 TRIFLEX serves with heavy and thin gauges strips
- 🌐 TRIFLEX is resistant against acidic, neutral and alkaline chemistry

FEATURES AND BENEFITS

- 🌐 Higher linear pressure with narrow nips
- 🌐 Improved squeezing effects on strip edges
- 🌐 Very good traction, high coefficient of friction
- 🌐 Temperature resistance of up to 110°C
- 🌐 TRIFLEX is extremely resistant to abrasion, cut, wear and tear
- 🌐 TRIFLEX requires less regrinds
- 🌐 TRIFLEX provides cost saving through better squeezing effects and longer run times

NOTES

For other hardnesses or finishes, please contact our sales staff or our technical service.

This information and our technical advice – whether verbal, in writing or by way of trials – is given in good faith but without warranty, and this also applies where proprietary rights of third parties are involved. Our advice does not release you from the obligation to check its validity and to test our products as to their suitability for the intended processes and uses. The application, use and processing of our products and the products manufactured by you on the basis of our technical advice are beyond our control, and therefore, entirely your own responsibility. Our products are sold in accordance with our General Conditions of Sales and Delivery.
