

Adhesions on rolls hinder your production and lead to **contaminations** in the product.

MITEX HIGH RELEASE reduces necessary cleaning and improves **product quality**.

SECURE **PRODUCT QUALITY** DUE TO **MITEX HIGH RELEASE** EXTREMELY **ANTI-ADHESIVE** ROLL COVERS

- Reduces e.g. glue buildup and resulting internal rejections
- Unmatched anti-adhesiveness
Useable even with cuts in surface
- High temperature resistance
Partially resistant to solvents
- No film overstretching
Reduced noise emissions
- Ideal for guide roll positions
Cost-effective and sustainable

▶ Simultaneously improve your product quality and process reliability.

We would be pleased to present to you the application possibilities of HIGH RELEASE Coating. Please contact us.
